Date: 14.07.06

Mrs.Mariyamma

Name.....

Kulangara

Address.....

Thazhathangadi.P.O

.....

Kottayam, KERALA

.....

Age: 50 yrs **Sex:** F **Religion:** Christian **Caste:**

Occupation: Laboratory Supdt.

Marital Status: Married

Diagnosis: HBV Carrier

Attended By: Dr.S.G.BIJU

1. Presenting Complaints:

Patient was asymptomatic except a Positive Lab result of HBs Ag which was accidentally noted during a routine lab investigation in Medical College Hospital Kottayam.

Slight discomfort and distention of abdomen after eating.

2. History of Present Illness

Accidentally noted during a routine Laboratory investigation on 06/07/2006.

3. History of past Illness and Treatment

History of chest infection (Pneumonia?) 1 year back. Undergone repeated Injections for 2 months.

H/o Otitis media during child hood > ted by Allopathic treatment

4. Family History

5. Personal History

Place of Birth : Kottayam

Religion : Christian

Education : Graduation

Economical status : Middle class

Marital status : Married

Occupation : Supdt. Of Clinical Laboratory

Habits

Food : Non Vegetarian

Addictions : Nil

Sleep : Good

6. Physical Generals

Hot patient. Desire for warm drinks. Aversion to covering.

Sleepless due to anxiety.

Desire for spices

Desire Dried Fish

Menopause 2 years back with very occasional spotted bleeding.

7. Mental Features

Doubtful about recovery.

Curious to know about disease.

Smiling while talking

8. Physical Examination

BP: 140/80 Weight: 55Kg Pulse: 78/mt

10. Laboratory Findings

HBs Ag (ELISA) – POSITIVE 06/07/2006

PROVISIONAL DIAGNOSIS : HBV Infection

DEFFERENTIAL DIAGNOSIS : HBV Active, HAV, HCV

FINAL DIAGNOSIS: HBV Carrier

A. Analysis & Evaluation of the case

Disease Symptom	Patient Symptom	Person Symptom
HBs Ag Positive Abdominal Discomfort After Eating	Doubtful About Recovery Hot patient (heat Sensation) Spotted bleeding after Menopause Covering aversion.	Smiling while speaking Curious Desire Spices, Dried fish

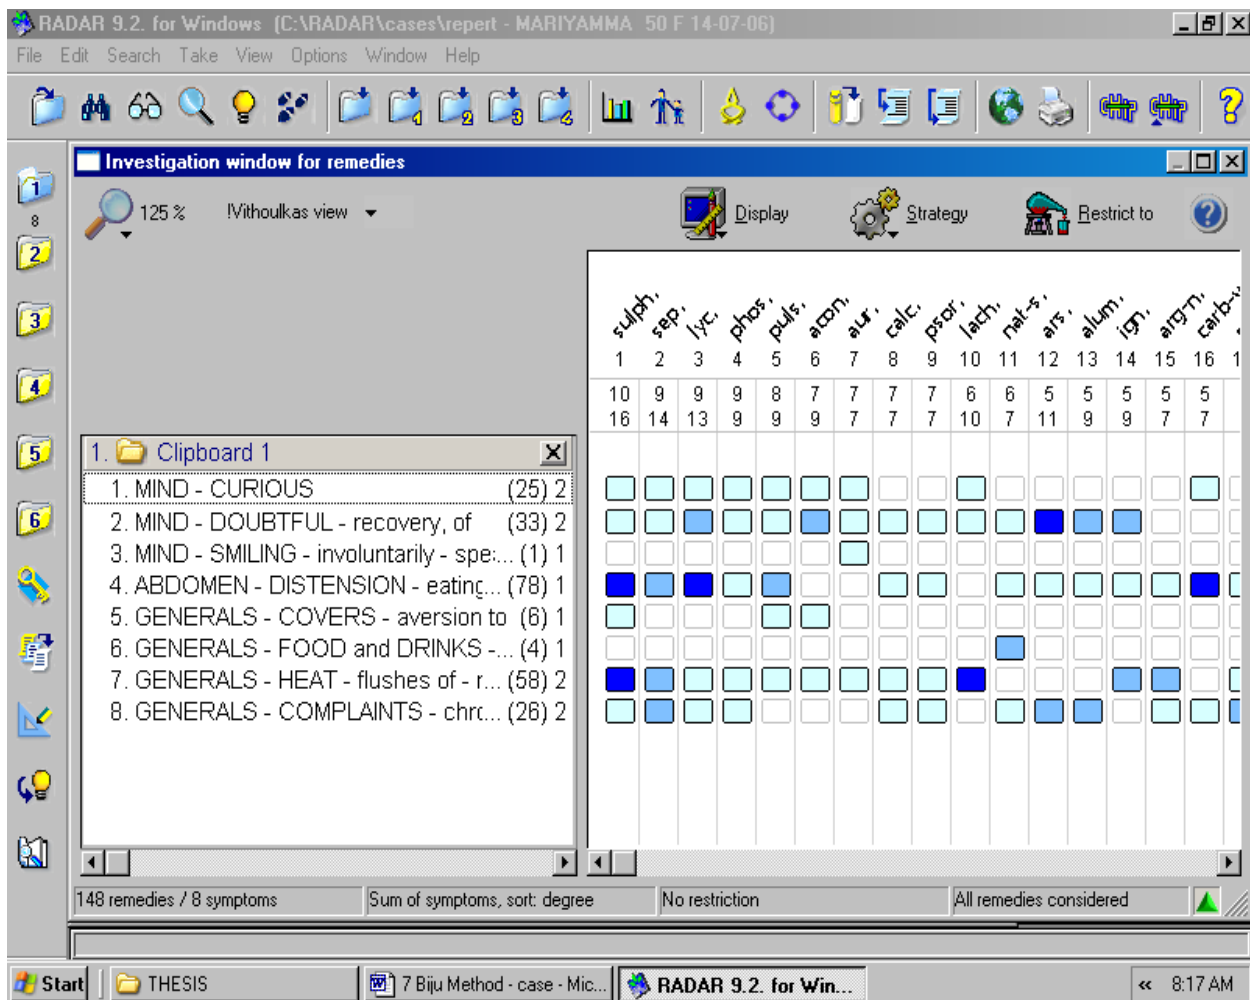

B. Miasmatic Evaluation of essential Totality :

Psora	Sycosis	Syphilis
Curious	Spices - Desire	Spotted Bleeding after menopause
Sensitive abdomen with distention after eating	Doubtful about recovery.	
Smiling while speaking	Menopause with hot flushes.	
	HBV Carrier (Chronicity)

MANAGEMENT & TREATMENT

A. Plan of Treatment

Constitutional Treatment .

B. General / Accessory

Avoid Night watching.

C. Medicinal – First Prescription *Sulphur 200*

BASIS OF SELECTION

- (i) Medicine : Constitutional (Hot Patient), Psoric
- (ii) Potency : 200th medium potency
- (iii) Dose : 1 Dose

FOLLOW UP CRITERIA

1. **MIND - CURIOUS**
2. **MIND - DOUBTFUL** - recovery, of
3. **MIND - SMILING** - involuntarily - speaking; when
4. **ABDOMEN - DISTENSION** - eating - after - agg.
5. **GENERALS - COMPLAINTS** - chronic
6. **GENERALS - COVERS** - aversion to
7. **GENERALS - FOOD and DRINKS** - fish - desire - salty
8. **GENERALS - FOOD and DRINKS** - spices - desire
9. **GENERALS - HEAT** - flushes of - menopause; during

CASE RECORD

Reg.No.1806/06

Date: 19.08.06

Mr.BINUKUMAR

Name.....

Binu Bhavan

Address.....

Kavalam

.....

Alappuzha, KERALA

.....

Age: 30 yrs **Sex:** M **Religion:** Hindu **Caste:**Ezhava

Occupation: Lab Assistant **Marital Status:** Married

Diagnosis:

Active Hepatitis - B

Attended By: Dr.S.G.BIJU

1. Presenting Complaints:

Vomiting immediately after eating and drinking for 5 days.

Burning pain in lower abdomen. Red Discoloration of urine.

Yellow discoloration of sclera. Extreme prostration. Aching pain in left lower limb. Constant nausea. Itching around eyes. Loss of appetite

2. History of Present Illness

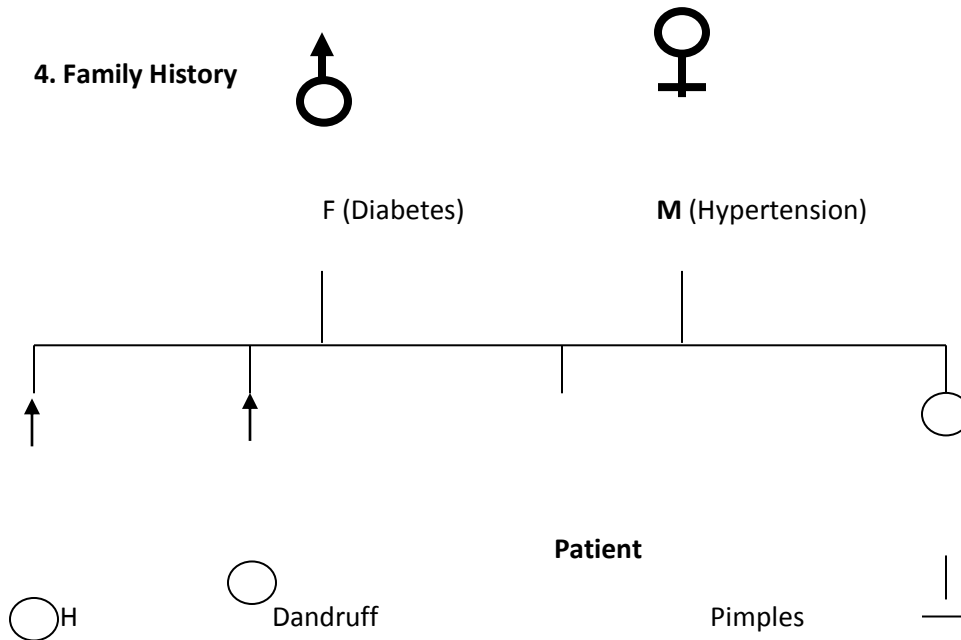

Patient is suffering from vomiting since 4 days. Yellow discoloration of sclera for 3 days and aching lower limbs for 2 days. Vomiting started after taking lime juice from alappuzha. There was malaise and weakness for 2 weeks and history of aversion to food in the beginning that end up with complete loss of appetite 3 days back.

History of past Illness and Treatment

There was history of dental carries undergone for Root canal treatment from local dentist 2 months back.

History of a bike accident 5 years back with # Rt. Elbow 4 years back

4. Family History

5. Personal History

Place of Birth : kavalam

Religion : Hindu

Education : BSc, BLT

Economical status : Middle class

Marital status : Married at the age of 25

Children : 1

Occupation : Lab technician

Nutritional status : Good

Habits

Food : Non Vegetarian

Addictions : Nil

Sleep : Good

6. Physical Generals

Apetite-Loss,

Thirst-Increased but can take because of vomiting,

Sleep-Sleepless due to itching around eyes.

Stool-Inactivity of rectum,

Sweat-Yellow staining the cloths,

Dreams – of his own death,

Desires cool drinks,

Tendency to exhaust,

Chilliness

7. Mental Features

Facial expression-Anxious,

Anxious about his own health.

Fear of death.

Fear of contagion to his family members.

Anxiety about the health of his family members.

8. Physical Examination

BP: 130/90 Weight: 48Kg Pulse: 86/mt

Palpation – 2 finger enlargement of liver. Tenderness in

Right Hypochondrium.

Odema-Mild in ankle joints

Sclera – yellow discoloration in day light.

Skin – Pallor, No cynosis, Dark discoloration around eyes.

9. Laboratory Findings

15 -08 - 06

HBsAg - +

19 – 08 – 06

Serum Bilirubin – 7.0 Mg/dl

S. Total protein – 6.9 Mg/dl

S.Albumin – 4.0

S.Globulin – 2.9

SGOT – 112 IU/MI

SGPT – 98 IU/MI

Alkaline Phosphatase – 7.6 KAU

PROVISIONAL DIAGNOSIS : HBV Infection

DEFFERENTIAL DIAGNOSIS : HBV Active, HAV, HCV, Toxic Hepatitis

FINAL DIAGNOSIS: **Active hepatitis B.**

A. Analysis & Evaluation of the case

Disease Symptom	Patient Symptom	Person Symptom
HBs Ag Positive	Dreams of His awn death	Anxiety about others
Yellow Coating of Tongues	Inactivity of rectum	Anxious facial Expression
Yellow Discoloration of Sclera	Fear of death	
Vomiting Immediately After Eating	Fear of contagion for others	
Want of appetite	Desire cold things	
Burning pain in Hypogastria	Chilliness	
Red Discoloration of urine		
Weakness		

Itching around eyes		
Constant nausea		

B. Miasmatic Evaluation of essential Totality :

Psora	Sycosis	Syphilis
Burning pain in Hypogastria	Serum Belirubin – 7	Fear of contagion
Weakness	Yellow Discoloration of Sclera.	SGPT – 98 IU/ML
Itching around eyes		SGOT – 112 IU/ML
Constant Nausea	Yellow coating on tongue	Red discoloration of urine.
Want of appetite		
Vomiting immediately after eating		Dreams of his own death.
Inactivity of rectum		

Anxiety about others		
Anxious facial Expression		
Chilliness

MANAGEMENT & TREATMENT

D. Plan of Treatment

Constitutional Treatment with importance to Syphilitic symptoms/rubric as the case is pathological .

E. General / Accessory

Fat free diet. Vegetarian diet. Advised to take plenty of water as vomiting relieved. Salt restricted as patient is suffering from itching.

F. Medicinal – First Prescription *SILICEA 30*

BASIS OF SELECTION

- (i) Medicine : Constitutional (Chilly), Syphilitic
- (ii) prominence with Psora in the back ground
- (iii) Potency : 30th medium potency
- (iv) Dose : 1 Dose

FOLLOW UP CRITERIA

1. MIND - FEAR - contagion
2. STOMACH - APPETITE - wanting
3. STOMACH - VOMITING - eating - after - agg.

4. HYPOCHONDRIA - Inflammation - liver
5. ANUS AND RECTUM - Inactivity, powerlessness rectum
6. URINE - Red
7. DREAMS - Death, peril of
8. CHILL - Chilliness, in general, lack of vital heat

CHILL - Chilliness, in general, lack of vital heat
