

PAPER 1

1. Lymph from the tonsil drains into
- a) jugulo omohyoid node c) submental node
 - b) jugulo digastric node d) upper deep cervical node
2. Mastoid process antrum begins to develop in the
- a) 6th week c) 1st year
 - b) 9th week d) 2nd year
3. Which is not transmitted through foramen ovale
- a) Mandibular nerve c) Middle meningeal artery
 - b) Accessory meningeal artery d) lesser petrosal nerve
4. Kidney is embryologically developed from which layer
- a) endoderm c) ectoderm
 - b) mesoderm d) endo-mesoderm
5. Which among the following are primary retroperitoneal organs
- 1) kidney 2) lower rectum
 - 3) aorta 4) tail of pancreas
- a) 1&2 c) 1,2&3
 - b) 1&4 d) 1,3&4
6. Epidural haemorrhage is commonly caused by injury to which vessel
- a) bridging cortical veins c) posterior cerebral artery
 - b) middle meningeal vessel d) basilar artery

7. The most abundant protein in human body is

- a) myosin c) collagen
- b) albumin d) keratin

8. The following is not a phospholipid

- a) sphingomyelin c) cerebroside
- b) lecithin d) cephalin

9. Glucose can be synthesized from all, except

- a) aminoacid c) acetoacetate
- b) glycerol d) lactic acid

10. R-RNA is mainly synthesized by

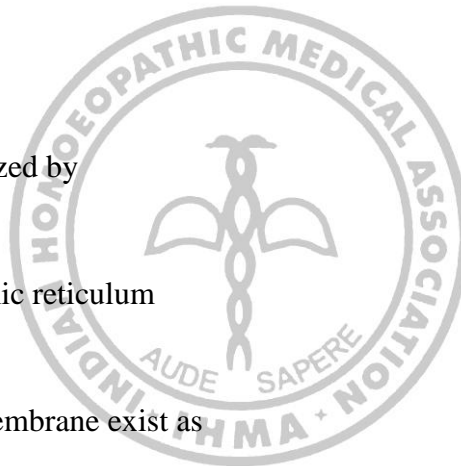

- a) nucleus c) ribosome
- b) nucleolus d) endoplasmic reticulum

11. The lipid bilayer of cell membrane exist as

- a) solid c) gel
- b) semisolid d) fibers

12) Vitamin used in the treatment of homocysteinuria

- a) B₁ c) B₆
- b) B₅ d) B₁₂

13. Queensland tick typhus is produced by

- a) R. Sibirica c) R. Conori
- b) R. Australis d) R. Orientalis

14. Classical typhus is produced by

- a) R. typhi c) R. akari
- b) R. prowazakii d) R. rickettsii

15. Match the following

- | | |
|-----------------------|---------------------------|
| A) H. influenza | 1) Friedlander's bacillus |
| B) Koch-Wick bacillus | 2) Vibrio |
| C) K. pneumonia | 3) Pfeiffer's bacillus |
| D) String test | 4) H. Egypticus |
| a) A1 B2 C3 D4 | c) A1 B4 C2 D3 |
| b) A3 B4 C1 D2 | d) A3 B1 C4 D2 |

16) Pinta fever is produced by

- a) Legionella c) Leptospira
- b) Aeromonas d) Yersenia

17. Khan reaction is a

- a) precipitation test c) agglutination test
- b) tube flocculation test d) none of the above

18. Hair falls out when touched in nursing women

- a) Nat.m c) Lyco
- b) Nat.m & Sep d) Nat.m, Sep, Lyco

19. Vertigo, >lying down

- a) Rhus.t c) Apis
- b) Bryonia d) all the above

20. Tension in nape or occiput before menses

- a) Amm.m c) Sep
- b) Nat.c d) Gel

21. Tea lead to prosopalgia, Tea lead to tppyhache

- a) Thuja, Spig c) Staph, Thuja
- b) Spig. Thuja d) China, Thuja

22. Menses with fatigue especially of thigh

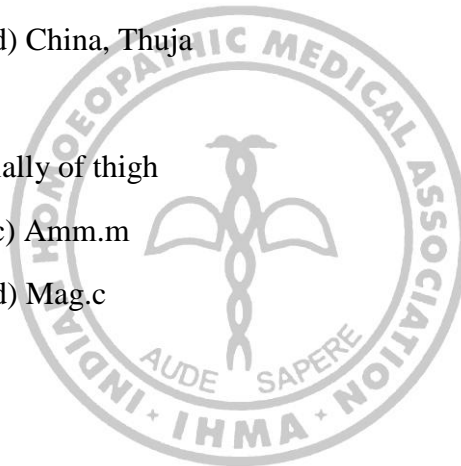

- a) Amm.m & Amm.c c) Amm.m
- b) Amm.c d) Mag.c

23. Restless limb in typhoid

- a) Tarax c) Verat.v
- b) Verat.alb d) Teribinth

24. Ailments lessen after dinner

- a) Iod c) Chel
- b) Anac d) all the above

25. Disease of venous system predominates, in

- | | |
|------------|----------------------|
| a) Carb.v | c) all the above |
| b) Sulphur | d) none of the above |

26. Tears fairly gush out

- | | |
|---------|--------------|
| a) Chel | c) Sep |
| b) Euph | d) Valariana |

27. Aversion to cold open air, “goes right through her”

- | | |
|--------------|----------|
| a) Theridion | c) Thuja |
| b) Cal.c | d) Ruta |

28. Labour pain, < by least noise

- | | |
|------------|-------------|
| a) Nux.v | c) Cyclamen |
| b) Sulphur | d) Act.r |

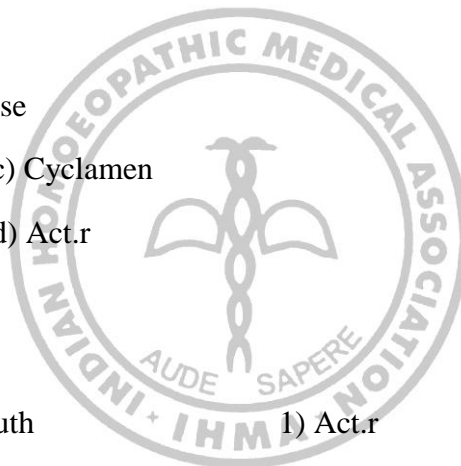

29. Match the following

- | | |
|---------------------------------|----------|
| A) Chewing motion of the mouth | 1) Act.r |
| B) Heart action ceases suddenly | 2) Hell |
| C) Soreness in folds | 3) Sulph |
| D) Perfect indifference | 4) Bapt |

- | | |
|-------------------|-------------------|
| a) A1, B4, C2, D3 | c) A1, B2, C3, D4 |
| b) A2, B1, C3, D4 | d) A4, B2, C3, D1 |

30. Red part become white

- | | |
|----------------|---------------|
| A) Ferr | C) Valariana |
| B) Millifolium | D) Syphillium |

- | | |
|--------|--------|
| a) A&B | b) B&C |
| c) A&C | d) A&D |

31. Match the following

- | | |
|--|----------|
| A) Vomiting, olive green | 1) Hep.s |
| B) Hasty speech & drinking | 2) Con.m |
| C) Students remedy for night work | 3) Bov |
| D) Tenacious mucous in the air passage | 4) Pyro |

- | | |
|-------------------|-------------------|
| a) A1, B4, C3, D2 | c) A4, B1, C2, D3 |
| b) A2, B3, C1, D4 | d) A3, B2, C4, D1 |

32. People who grow too rapidly, tall lean – chose the most appropriate answer

- | | |
|----------------------------------|-------------------------------|
| a) Sulp, Cal.p, Phos.ac | c) Sulph, Cal.p, Phos.ac, Sil |
| b) Sulph, Cal.p, Phos.ac, Coffea | d) Sulph, Cal.p, Phos.ac, Tub |

33. Constant titillating cough in childrens, begins as soon as head touches pillow at night, give the most appropriate answer

- | | |
|-------------------------------|-----------------------------|
| a) Dros, Hyos, Rumex, Bell | c) Dros, Hyos, Cup.m, Rumex |
| b) Dros, Hyos, Crot.t, Croc.c | d) Dros, Hyos, Bry, Spong |

34. Match the following

- | | |
|---|--------------|
| A) Syphilitic angina | 1) Hydrastic |
| B) Disgust for everything ,drink
Food ,tobacco | 2) Caul |
| C) Rheumatism of women | 3) Canth |
| D) Rappid carries of teeth | 4) Fluric.ac |

- a) A2, B1, C3, D4 c) A4, B2, C3, D1
b) A1, B3, C2, D4 d) A1, B3, C4, D2

35. Nose bleeding, with cold sweat in large drops on forehead

- a) Verat.a c) Croc.sat
b) Amm.c d) Arnica

36. Music makes her weep

- a) Graph c) Graph, Puls
b) Graph, Thuja d) Graph, Med

37. Profuse epistaxis during every paroxysm

- a) Croc.c c) Ind
b) Croc.c, Ind d) Ind, Amm.m

38. Pain, raw, sore, burning in every part of body

- a) Canth c) Caust
b) Cap d) Caust, Canth

39. Feeble or suspended function of organ or special senses

- a) Cyclamen c) Sulph
b) Tab d) Asar.eurp

40. Disposition to paronychia

- a) Hep c) Amm.m
b) X-ray d) Rann.b

41. Child on repimantation, lead to dilatation of pupils

- a) Ign c) Stram
b) Graph d) Hell

42. Fidgety, while sitting at work

- a) Zinc
b) Zinc, Graph
c) Graph, Tarend
d) Zinc, Phos

43. Heart's action persistently rapid but weak

- a) Collinsonia c) Act.r
b) Dig d) Gel

44. Which drug is the complementary of Nat.m, in headache

- a) Nux.v c) Gel
b) Lyco d) Spig

45. Graph fallows, well in skin affection

- a) Puls
b) Cal.c
c) Sulph
d) all the above

46. Fallows well, after Opium in bad effects of fright

- a) Hell c) Sabad
b) Samb d) Sulph

47. Theridion fallows well after

- a) Cal.c & Lyco c) Sep & Lyco
b) Cal.c & Sep d) Lyco & Cal.p

48. Diet in acute disease is described in

- a) 259-261 c) 267-268
b) 142-143 d) 262-263

49. Psychoanalysis is the concept of

- a) William Wundt c) Sigmund Freud
b) John Hunter d) Galen

50. olfactory is described in the footnote of

- [illegible]

51. Which is the observation which deals with the action of medicine on prover

- a) 8th
b) 9th
c) 11th
d) 10th

52. Friend of health , was published in Leipzig, in the year

- a) 1792 c) 1789
b) 1795 d) 1793

53. After administering a remedy, the mental symptoms of the patients were relieved with appearance of few new symptoms , what is your inference?

- a) Indicate correct medicine and good prognosis c) Partially indicated remedy
b) Wrong medicine d) Unfavourable prognosis

54. Cinchona is more suitable for

- a) All intermittent fever c) Epidemic intermittent fever
b) Endemic intermittent fever d) None

55. Egyptian god of health

- a) Horus
- b) Imhotep
- c) Asclepius
- d) Hippocrates

56. William James defined psychology as

- a) Science of consciousness
- b) Science of behavior
- c) Science of materialism
- d) Science of function of bodily process

57. Dr. Hahnemann's first book on Homoeopathic principles

- a) Medicine of Experience
- b) An essay for ascertaining the curative principles
- c) Aescuplius in the balance
- d) Fragmenta de viribus

58. 6th edition of Organon of medicine was edited by

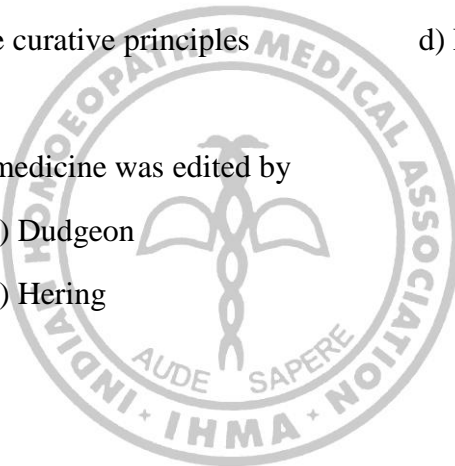

- a) William Boericke
- b) Richard hales
- b) Dudgeon
- d) Hering

59. Psoric mind is

- a) Avaricious
- b) Dissatisfied
- c) Inconsistent
- d) Destructive

60. Desire for salt and potato is marked in

- a) Syphilis
- b) Psora
- c) Tubercular
- d) Sycosis

61. Oxygenoid constitution is typically seen in

- a) Psora
- b) Syphilis
- c) Sycosis
- d) Tubercular

62. EINLEITUNG means

- a) Introduction of Organon of Medicine
- b) Preface of Organon of Medicine
- c) Aphorisms
- d) Appendix of Organon of Medicine

63. 4th edition of Organon of Medicine contains

- a) 271
- b) 317
- c) 320
- d) 292

64. In the 3rd edition of Organon of Medicine, Dr. Hahnemann introduced for the first time

- a) Bath
- b) Mesmerism
- c) Electricity & Galvanisation
- d) Vital force

65. Consider the following statements

- 1) Cure can be perceived
- 2) Everything of a morbid nature that is curable makes itself known to the physician by disease symptom

Choose the correct answer

- a) 1 is correct & 2 is correct
- b) 1 is correct & 2 is wrong
- c) Both are correct and 2 is the correct explanation of 1
- d) Both are wrong

66. A practicing which may be called inninal treason against divine homoeopathy

- a) Practicing allopathy
- b) Mineral bath
- c) Practicing allopathy and homoeopathy at the same time
- d) Practicing antipathy and homoeopathy at the same time

67. Only medicine that Brousseau used was

- a) Peruvian bark
- b) Reserpine
- c) Oil of Balsam
- d) gum Arabic solution

68. In footnote of aph.67 , it is said that metallic poisoning is antidote by

- a) Sulphur
- b) Hepar sulph
- c) Opium
- d) Camphor

69. Disease develops in a person who lives in a state of worry, according to Dr. Hahnemann is

- a) Mental disease of doubtful origin
- b) Emotional disease
- c) True chronic disease
- d) Inappropriately called chronic disease

70. Aph 116 deals with

- a) Grading of symptom in proving
- b) Grading of medicine in proving
- c) Action of medicine
- d) Surrogates

71. Choose the correct match from the following regarding time taken for cure

- | | |
|---|--------------------------------|
| A) Disease of recent origin | 1) Few days |
| B) Disease of long standing | 2) Few minutes |
| C) disease of some what long standing | 3) Proportionately longer time |
| D) Chronic disease due to allopathic bungling | 4) Much longer time |
| | 5) few hours |

a) A5, B3, C1, D4 c) A5, B1, C3, D4

a) A2, B4, C2, D1 d) A2, B2, C4, D1

72. Generals and undefined symptoms are dealt in

- a) 153 only c) Both
- b) 165 only d) None

73. Old ulcer in the leg get worse is produced when , miasm is left uncured

- a) Tubercular c) Sycosis
- b) Syphilis d) Psora

74. In the mental disease of 2nd type, the proper plan of management is

- a) Aconite, Bell, Stramon, Hyos, Merc etc only c) a+b+ psychotherapy
- b) a+ finally antipsoric constitutional remedy d) First antipsoric and then

75. Those diseases that reccur at certain period is

- a) Intermittent diseases c) Intermittent diseases + intermittent fever
- b) Alternating diseases d) Intermittent fever only

76. In the management of intermittent fever, when the apyrexia stage is short, administer the medicine at

- a) When the perspiration begins to abate
- b) Other subsequent phenomena of the expiring paroxysm begin to diminish
- c) early morning before food
- d) a+b

77. Dr. H.A Robert's idea of "deflected current" can be correlated with

- a) aph 257 c) aph 156
- b) aph 255 d) aph 248

78. Which of the following is an indication for the application of electricity, galvanism, magnetism

- a) Infantile epilepsy c) Mania
- b) Menorrhagia d) Involuntary muscular movements

79. In case of mineral magnetism, dose can be modified by

- a) The length of time of contact with north pole c) The length of time of contact with either pole
- b) The length of time of contact with south pole d) By the application of a plate of polished zinc

80. Aph 3, is explanation of a sentence from

- a) Aphorism of Hippocrates c) From the preface of Materia medica pura
- b) Friend of Health d) Medicine of experience

81. The chronic disease that is most easily cured

- a) Psora c) Sycosis
- b) Syphilis d) Tubercular

82. According to Dr. Kent, the physician must know himself and that the patient is on the road to recovery, in

- a) 9th observation c) 11th observation
- b) 10th observation d) 12th observation

83. Lord Bacon is known as

- a) Master clinician c) Luther of Medicine
- b) Prince of Physician d) None

84. Which of the following words have Greek origin

- a) Homoeopathy
- b) Materia medica
- c) Similia
- d) Drug

85. Dr. Hahnemann's death certificate was issued by

- a) Gross
- b) Staph
- c) Ruckert
- d) Jahr

86. "To a candidate for the degree of MD" was published in

- a) 1819
- b) 1809
- c) 1799
- d) 1829

87. Basilar headache is

- a) Psora
- b) syphilis
- c) Sycotic
- d) Tubercular

88. Number of medicine in the concordance repertory of Gentry?

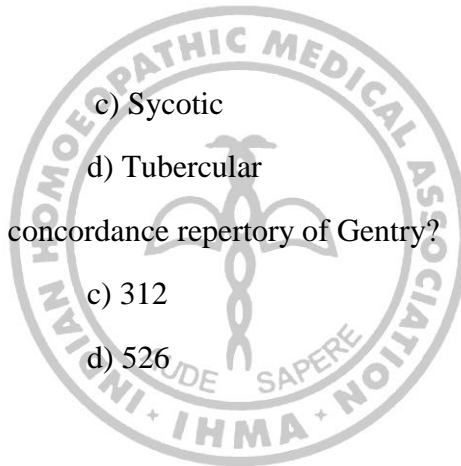

- a) 420
- b) 408
- c) 312
- d) 526

89. "Steiss" in TPB means

- a) scapula
- b) back in general
- c) Sacrum
- d) Coccyx

90. "the force of gentleness is great" this is the motto of

- a) Murphy
- b) Hering
- c) Kneer
- d) Kent

91. Clinical repertory is the concept of

- a) J.H Clark
- b) J.B Bell
- c) W.A Allen
- d) C. Burnett

92. Hand sign in Herings guiding symptoms of materia medica denotes

- a) cross reference
- b) approved characteristic
- c) symptoms verified by cures
- d) none

93. Thematic repertory is written by

- a) Phatak
- b) Bakshi
- c) Mirrilli
- d) R.P Patel

94. Magnum oppos, by Dr. Field was published in

- a) 1920
- b) 1922
- c) 1948
- d) 1892

95. Rubrics related to dreams can be seen in which volume of Synthetic repertory?

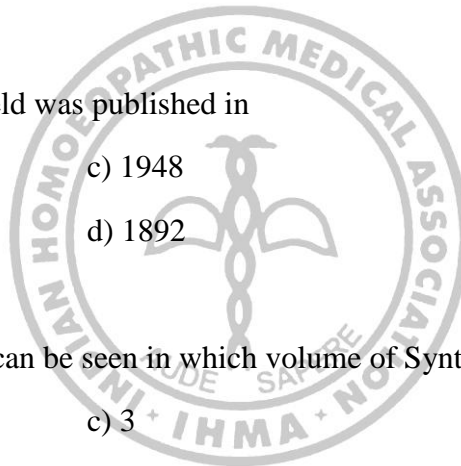

- a) 1
- b) 2
- c) 3
- d) 4

96. Denotation of “frivolous” is

- a) confused
- b) fearless
- c) doesnt pay serious attention to anything
- d) affectionate

97. C.M Boger’s –collected writings, was published by

- a) Robert Bannan
- b) Francis Peabody
- c) H.A Robert
- d) M.L Dhawale

98. In TPB, the rubric “hair of head falls out” seen in

- a) External head c) Aggravation
- b) Skin d) Face

99. “ Anamnesis” has its origin from

- a) Latin c) French
- b) German d) Greek

100. Potential differential field is

- a) reportorial totality only c) numerical totality – conceptual image
- b) conceptual image only d) conceptual image - reportorial totality

101. Modern method of repertorization is

- a) computer method c) using reportorial sheet
- b) using plain paper sheet d) computer method and reportorial sheet

102. Repertory written by, C.F Mills Paugh

- a) repertory of heart c) repertory of eczema
- b) repertory of foot sweat d) repertory of rheumatism

103. First original repertory in French

- a) Homoeopathic repertory of Symptomatology c) Symptom register
- b) Systemic alphabetic repertory d) Manual of homoeopathy

104. “We term a symptom index a repertory” , this statement was made by

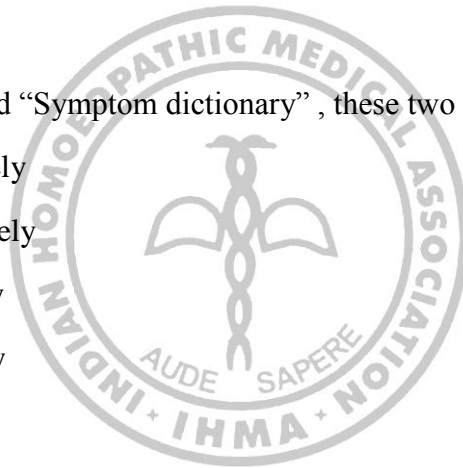

- a) Boger
- b) Elizabeth Wright
- c) M.L. Tyler
- d) Boeninghausen

105. Contraindication, the use of repertory is

- a) Mismanaged cases
- b) To trace out the probable sequence of remedies that may be necessary for cure
- c) In those cases where there are clear indication for a remedy
- d) Chronic cases where several remedies seem to cover the picture

106. “ Symptom repertory” and “Symptom dictionary” , these two repertories are written by

- a) Hahnemann, Jahr respectively
- b) Jahr, Hahnemann respectively
- c) T.F Allen , Jahr respectively
- d) Jahr, T.F Allen respectively

107. Verwandschattu repertory is

- a) repertory of antipsoric
- b) systematic alphabetic repertory
- c) Homoeopathic repertory of Symptomatology
- d) An attempt to show the relative kingship of Homoeopathic remedies

108. Choose the correct match

- | | |
|--|----------------|
| A) Repertory of respiratory organs | 1) Morgan |
| B) Repertory of respiratory diseases | 2) Lee & Clark |
| C) Repertory of cough and expectoration | 3) Nash |
| D) Repertory of Therapeutics of respiratory system | 4) Lutze |
| | 5) Vanderburg |
-
- | | |
|-------------------|-------------------|
| a) A1, B3, C5, D2 | c) A4, B3, C2, D1 |
| b) A4, B2, C3, D5 | d) A1, B5, C3, D4 |

109) Steps to repertorization starts from

- | | |
|---------------------------------|----------------------------------|
| a) analysis | c) selection of proper repertory |
| b) synthesis/ erecting totality | d) case taking |

110. Need for repertory is dealt in

- | | |
|------------------|------------------|
| a) aph 153 | c) aph 154 |
| b) FN to aph 153 | d) FN to aph 154 |

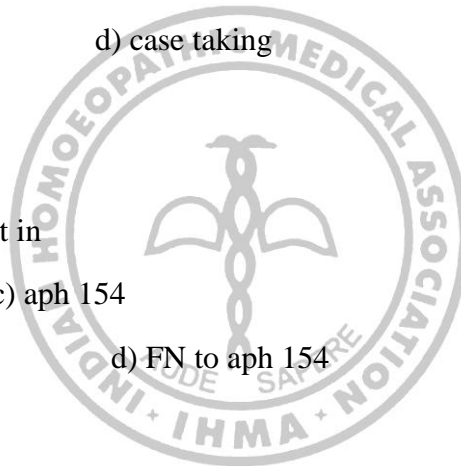

111. Who coined “guiding symptom”?

- | | |
|------------|-----------------|
| a) Hering | c) Grath Borick |
| b) Gurnesy | d) H.C Allen |

112. Author of “An attempt at the Homoeopathic therapy of Intermittant fever”

- | | |
|--------------|-------------------|
| a) W.A Allen | c) H.C allen |
| b) Boger | d) Boenninghausen |

113. In TPB, burns can be seen in

- a) Skin c) Face
b) Sensation & complaints d) None

114. “ASTHMA- MILLERI” this rubric is seen in which chapter of BBCR?

- [illegible]

115. Kent's repertory was published in book form, in the year

- a) 1898 c) 1897
c) 1896 d) 1899

116. “Italics” is not used in the typography of which repertory?

- a) Synthesis
b) Synthetic repertoire
c) BCCR
d) all the above

117. IPC for greivous injury is

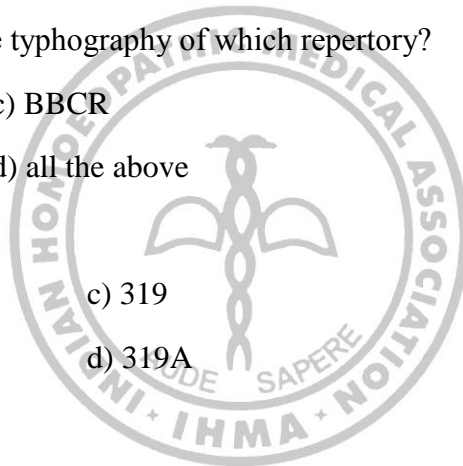

- a) 320
b) 318
c) 319
d) 319A

118. Pugilistic attitude is seen in

- a) antemortom burns c) antemortem as well as postmortem burn
- b) postmortem burn d) electric shock

119. What is “knockout drop”

- a) Chloral hydrate c) Hydrogen sulphide
b) Hydrocyanic acid d) Organophosphorous

120. Antidote of phosphorous poison

- a) Hydrated ferric oxide
- b) Copper sulphate
- c) Olive oil
- d) Calcium gluconate

121. All of the following are true except

- a) Repertory Of Fever –H.C Allen
- b) Therapeutics of Intermittent fever – W.A Allen
- c) Repertory Of Intermittent Fever – W.A Allen
- d) Repertory of miasm – R.P Patel

122. “Guide to health” is written by

- a) Boenninghausen
- b) Father Muller
- c) Hahnemann
- d) Babu Rajendralan Dutta

123. Test for arsenic poisoning

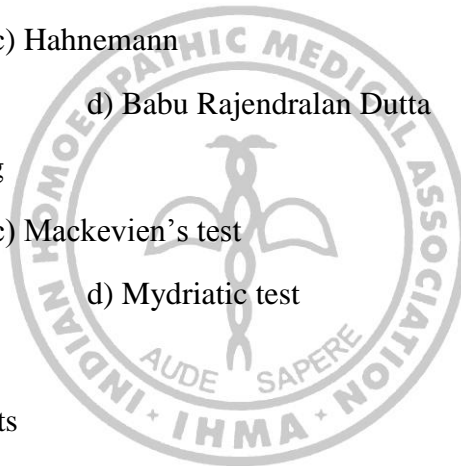

- a) Marsh test
- b) Marquis test
- c) Mackevien’s test
- d) Mydriatic test

124. R wave, in ECG represents

- a) depolarization of the right ventricles
- b) depolarization of left ventricles
- c) repolarisation of left ventricles
- d) repolarisation of right ventricles

125. Atypical hyperplasia is

- a) Dysplasia
- b) Hypertrophy
- c) Metaplasia
- d) Hypoplasia

126. A man about 45yrs old, who works in a dairy farm, complaints of PUO, with lassitude and joint pain that have lasted for many years, the most probable clinical diagnosis is

- a) TB c) malignancy
- b) brucellosis d) AIDS

127. River blindness is produced by

- a) loa loa c) Onchocerca volvulos
- b) Brugiya malay d) Brugiya timori

128. Richest source of essential fatty acid is

- a) safflower oil c) con oil
- b) sunflower oil d) coconut oil

129. India is in which phase of demographic cycle

- a) early expanding c) high stationary
- b) late expanding d) low stationary

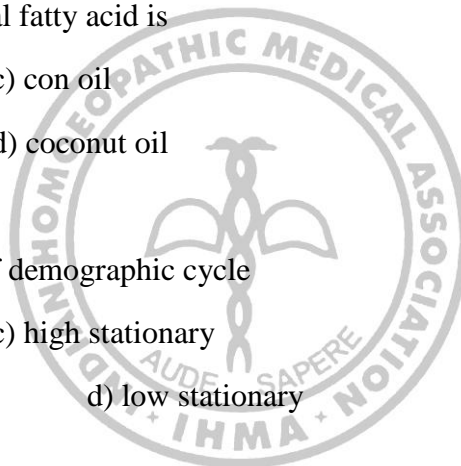

130. Normal ejection fraction is about

- a) 70% c) 65%
- b) 60% d) 74%

131. The most common type of necrosis is

- a) coagulation necrosis c) colliquative necrosis
- b) fat necrosis d) fibrinoid necrosis

132. Immunoglobulin that crosses placenta

- a) Ig G c) Ig A
b) Ig E d) Ig M

133. Daily requirement of vit C, is

- a) 40 mg c) 42 mg
b) 35 mg d) 60 mg

134. Effective diameter of sand, in slow sand filter is

- a) 0.2 to 0.3 mm c) 0.2 to 0.4 mm
b) 0.1 to 0.2 mm d) 0.4 to 0.5 mm

135. Haemophilia B, is a

- a) Bleeding disorder
b) both bleeding as well as clotting disorder
c) clotting disorder
d) non of the above

136. Number of amino acid in insulin molecule

- a) 55 c) 51
- b) 54 d) 52

137.Hahnemann's method for mother tincture preparation, from less juicy plant have been described in

- a) FN of aph 267 c) FN of aph 266
- b) aph 267 d) aph 266

138. Absolute alcohol is also called

- a) strong alcohol c) alcohol officinalis
b) anhydrous alcohol d) proof spirit

139. The term polycryst is

- a) American c) Greek
b) German d) French

140. Second heart sound is heard during

- a) iso-volumetric contraction c) protodiastolic phase
b) period of reduced filling d) rapid filling phase

141. Which part of prescription is called, body of prescription?

- a) inscription c) subscription
b) superscription d) signature

142. Drug strength in class-3, old method preparation is

- a) $\frac{1}{2}$
b) $\frac{1}{5}$
c) $\frac{1}{10}$
d) $\frac{1}{6}$

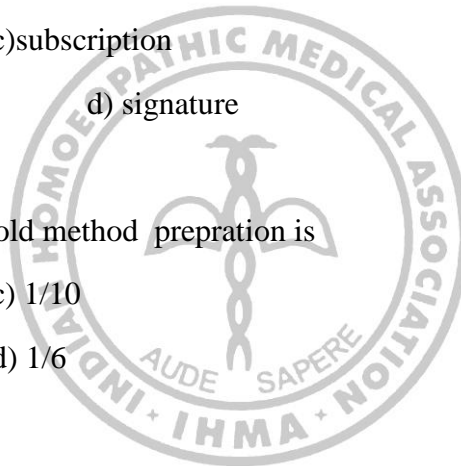

143.Cloudy swelling is otherwise called

- a) Hyalin degeneration c) Fibrinoid degeneration
b) Albuminous degeneration d) Fatty degeneration

144. All are true about TRANSUDATE, except

- a) non- inflammatory c) coagulates
b) low protein d) no permeability change

145. Following cells takes basophilic staining, except

- a) Lactotropes c) Thyrotropes
b) Gonadotropes d) Corticotropes

146. Flowers for medicinal preparation should be collected in

- a) dry weather c) rainy weather
b) autumn d) spring

147. Type of alcohol used for converting solid into liquid potency

- a) dilute alcohol c) dispensing alcohol
b) strong alcohol d) anhydrous alcohol

148. Nat.m, according to old method of preparation is prepared, via

- a) class- v, a c) class- v, b
b) class- vi, a d) class- vi, b

149. Hormone that decreases erythropoiesis

- a) oestrogen c) vasopressin
b) TSH d) prolactin

150. Artesian well is a type of

- a) shallow well c) step well
b) deep well d) deep well with steps
