905-NR

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION
PHYSIOLOGY INCLUDING BIOCHEMISTRY
PAPER – II
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

-
1. What are the pituitary hormones? Explain their mechanism of secretion and regulation.
15
 2. Describe the composition, functions and mechanism of secretion of gastric juice.
15

WRITE SHORT NOTES ON:

14X5=70

3. Synapse.
4. Extra Pyramidal system.
5. Broca's area.
6. Functions of pineal gland.
7. Functions of placenta.
8. Enzyme inhibitors.
9. Urea cycle.
10. Conjugated lipids.
11. Ketogenesis and ketolysis.
12. Sources, functions and deficiency of Vit.A.
13. Essential amino acids.
14. Regulation of citric acid cycle (Krebs cycle)
15. Liver glycogen.
16. Functions of albumin

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION

MATERIA MEDICA

(NEW REGULATIONS)

Time : 3 Hours

Max. Marks: 100

Note : Answer all questions

Draw diagrams wherever necessary

-
1. Write the drug picture of Antimonium crudum. 15
 2. Write the drug picture of Bryonia alba. 15

WRITE SHORT NOTES ON:

14x5=70

3. Urinary symptoms of Apis Mel.
4. Chamomilla baby.
5. Respiratory and fever symptoms of Aconite.
6. GIT complaints of colocynth.
7. Arnica in injuries.
8. Skin complaints and modalities of Ledum Pal.
9. Head symptoms of Silicea.
10. Fever symptoms of Rhustox.
11. Skin complaints and Rheumatism of Dulcamera.
12. Gastric and rheumatic complaints of Colchicum.
13. Five characteristic symptoms of Calc. Fluor.
14. Skin and suppurative conditions of Calc. Sulph.
15. Throat and eye symptoms of Art. Nit.
16. Mental symptoms and GIT complaints of Cina.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION

ANATOMY

PAPER – II

(New Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

-
1. Write Morphology, location, relations, histology and development of LIVER.
15
 2. Write boundaries, contents, roof, floor and applied anatomy of FEMORAL TRIANGLE. Add a note on clinical importance of FEMORAL CANAL.
15

WRITE SHORT NOTES ON:

14x5=70

3. Mammary gland – Morphology, Blood Supply and Histology.
4. Right Lung – Morphology, Relations and Blood Supply.
5. Pericardium – Types, nerve supply and clinical importance.
6. Right atrium of Heart – Internal features and development.
7. Ovaries – Relations and Nerve supply and lymphatic drainage.
8. Duodenum second part – Morphology, Blood Supply and Internal features.
9. Superior Mesenteric Artery – Origin, course and Branches.
10. Differences between Jejunum and Ilium.
11. Uterine tubes – Morphology and blood supply.
12. Posterior Tibial artery – Course, relations, branches and applied anatomy.
13. Prostatic part of urethra – Internal features.
14. Testis – Morphology & Histology.
15. Sciatic Nerve – Origin, course and branches.
16. Knee joint – Ligaments and applied anatomy.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION
HOMOEOPATHIC ORGANON INCLUDING PSYCHOLOGY
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

-
1. Define Homoeopathy. Write the fundamental principles of Homoeopathy in detail. 15
 2. Write an essay on "Actions of Medicines". 15

WRITE SHORT NOTES ON:

14x5=70

3. Last decade of Hahnemann's life.
4. Brief life history and contributions of Dr.C. Hering.
5. Complex and double complex diseases.
6. Aphorism No.4.
7. Different editions of Organon briefly.
8. Allopathy and Antipathy.
9. Sources and importance of totality of symptoms.
10. Health in Hahnemann's view.
11. Inductive method of reasoning.
12. Lord Bacon's Novum Organon.
13. Phobias.
14. Behaviour.
15. Types of personalities.
16. Psychosomatic manifestations and dreams.

- - -

.....

FIRST B.H.M.S. EXAMINATION
HOMOEOPATHIC PHARMACY
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Define potentisation and write the objectives and different scales of potentisation. Explain the mood of succussion. 15
2. Write different sources of homoeopathic drugs with examples. 15

WRITE SHORT NOTES ON:

14x5=70

3. Homoeopathic pharmacopoea.
4. Pharmacological action of Cinchona officinalis.
5. Strong alcohol.
6. Drugs and cosmetic act in respect of Homoeopathic pharmacy.
7. Drug substance.
8. Aphorism 264 and 274.
9. Water bath.
10. Estimation of size of Globule.
11. Sublimation.
12. Concept of drug proving.
13. Define dose and various kinds of dose.
14. Properties of an ideal vehicle.
15. Lotions.
16. Meanings of the following Notations/Greek / Latin words used in Homoeopathic prescriptions:
 - a) Q.S.
 - b) Agit
 - c) B.D.
 - d) Omni mane
 - e) Cras mane (c.m.)

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION

ANATOMY

PAPER – I

(NEW REGULATIONS)

Time: 3 Hours

Max. Marks: 100

Note: Answer all questions

Draw diagrams wherever necessary

-
1. Write boundaries, contents, lymphatic drainage and applied anatomy of AXILLA. Add a note on course, branches and termination of Axillary Artery.

15

2. Write divisions of Anterior triangle of neck with boundaries. Write boundaries, contents and clinical importance of CAROTID TRIANGLE.

15

WRITE SHORT NOTES ON:

14x5=70

3. Elbow joint – Ligaments and applied anatomy.
4. Musculocutaneous nerve – Origin, course, branches and applied anatomy.
5. Cervical vertebra – 1st – General and particular features.
6. 3rd ventricle.
7. Medial wall of orbit.
8. Foramen Lacerum and foramen magnum.
9. Muscles of hand – Groups, Nerve supply and applied anatomy.
10. Mitosis and Meiosis.

11. Meninges – Layers and importance.
12. Arterial supply of brain (Circle of willis).
13. Developmental abnormalities of uterus.
14. Middle ear – Boundaries, contents and applied anatomy.
15. Maxillary artery – Origin, course and branches.
16. Internal capsule – its parts and constituents.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

FIRST B.H.M.S. EXAMINATION
PHYSIOLOGY INCLUDING BIOCHEMISTRY
PAPER – I
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

-
- | | |
|--|----|
| 1. Define blood pressure. Describe factors affecting blood pressure. | 15 |
| 2. Discuss and write a note on pulmonary volumes and capacities. | 15 |

WRITE SHORT NOTES ON:

14x5=70

3. Rods and cones.
4. Properties of cardiac muscle.
5. Functions of spleen.
6. GFR.
7. Sebaceous gland.
8. Plasma membrane of the cell.
9. Channels of heat loss.
10. Rh factor.
11. Surface tension and its importance.
12. Taste buds and basic or primary tastes in humans.
13. Mechanism of deafness.
14. Renal function tests.
15. Functions of platelets.
16. Normal and abnormal constituents of urine.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

SECOND B.H.M.S. EXAMINATION
FORENSIC MEDICINE AND TOXICOLOGY
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Define hanging. Write the causes of death and post- mortem appearances in hanging.
Add a note on the differences between hanging and strangulation. 15

2. Define abortion legally. Write the classification of abortion and indications and Rules of
MTP. Add a note on post- mortem evidence of criminal abortion. 15

WRITE SHORT NOTES ON:

14x5=70

3. Differences between true bruise and artificial bruise.
4. Inquest.
5. Professional Secrecy.
6. Euthanasia.
7. Gustafson's Method.
8. Exhumation.
9. Differences between Rigormortis and Cadaveric spasm.
10. Injuries to the occupants of the vehicles in traffic accidents.
11. Ideal Homicidal poison and suicidal poison.
12. Mechanical or physical antidotes.
13. Vitriolage.
14. Signs and symptoms and post-mortem appearances of carbolic acid (phenol) poisoning.
15. Signs and symptoms and treatment of chronic lead poisoning.
16. Signs and symptoms and treatment of Cannabis indica poisoning.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

SECOND B.H.M.S. EXAMINATION
PHILOSOPHY & ORGANON OF MEDICINE
(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

- | | |
|---|----|
| 1. Describe the drug proving in detail. | 15 |
| 2. Define susceptibility, explain its role in health, disease, Cure, epidemics and suppression. | 15 |

WRITE SHORT NOTES ON:

14x5=70

3. Define epidemic diseases. How do you manage them?
4. Quote aphorism 26 and explain it giving examples.
5. What are exciting, maintaining and fundamental causes? Give one example for each.
6. 'Removal of totality of symptoms is removal of the cause' – Explain.
7. Concomitant symptoms – Definition, examples and their importance with a given case.
8. Alternating action of medicine as explained in aphorism 115.
9. What is the highest ideal of cure?
10. "Homoeopathy is governed by the principle of individualization" Justify.
11. Medicines are stronger than the natural diseases, Why?
12. Explain the law of minimum and the law of simplex.
13. Define isopathy and list its disadvantages.
14. Deductive logic.
15. Different editions of Organon of medicine.
16. Dr. J.T. Kent's conversion and contributions in the field of homoeopathy.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

SECOND B.H.M.S. EXAMINATION

MATERIA MEDICA

(NEW REGULATIONS)

Time : 3 Hours

Max. Marks: 100

Note : Answer all questions

Draw diagrams wherever necessary

-
- | | |
|--------------------------------------|----|
| 1. Write drug picture of Ignatia. | 15 |
| 2. Write drug picture of Phosphorus. | 15 |

WRITE SHORT NOTES ON:

14x5=70

3. Silicea - Baby.
4. Urinary symptoms of Berberis vulgaris.
5. Mental & GIT symptoms of Anacardium.
6. Female symptoms of Ammonium-carb and Bovista.
7. Mental and Head symptoms of Ars.alb.
8. Cardiac symptoms of Digitalis and Gelsemium.
9. Five characteristic symptoms of Chelidonium maj.
10. Respiratory symptoms of Hepar-sulph and Spongia.
11. Rheumatism of Rhus tox and Bryonia-alba.
12. Glandular affections of Conium and Phytolecca.
13. Skin symptoms and modalities of Petroleum.
14. Chorea of Agaricus Mus.
15. Helliborus Niger and Opium in brain affections.
16. Fever symptoms of Arnica and Baptisia T.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

SECOND B.H.M.S. EXAMINATION
PATHOLOGY AND MICROBIOLOGY
(NEW REGULATIONS)

Time: 3 Hours

Max. Marks: 100

Note: Answer all questions

Draw diagrams wherever necessary

-
1. Define embolism. Write the genesis and fate of embolism. Add a note on retrograde embolism. 15
 2. Describe the morphology, cultural characteristics, pathogenesis and laboratory diagnosis of streptococcus pyogens. 15

WRITE SHORT NOTES ON:

14x5=70

3. Aldehyde test.
4. Pathogenesis of Essential Hypertension.
5. Compare Exotoxins and Endotoxins.
6. Atrophy.
7. Gram's Stain.
8. Life cycle of Ancylostoma duodenale.
9. Gout.
10. Albuminuria.
11. Lung abscess.
12. Hydatid Cyst.
13. Characteristic expressions of syphilitic miasm.
14. General characters of viruses.
15. Flaviviruses.
16. Squamous Cell of Carcinoma.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

THIRD B.H.M.S. EXAMINATION
 OBSTETRICS AND GYNAECOLOGY
 (Homoeotherapeutics)
 PAPER – III
 (NEW REGULATIONS)

Time : 3 Hours

Max. Marks: 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the indications of Ars.iod, Kreosote, Carbo animalis, Thuja and Phosphorus in carcinoma of cervix. 15

2. Write the indications of Nux-vom, Pulsatilla, Kali-carb, Sepia and Petroleum in ante natal care. 15

WRITE SHORT NOTES ON:

14x5=70

3. Indications of Millifolium and Sabina in menorrhagia.
4. Indications of Calc carb and Graphites in menopausal complaints.
5. Indications of Murex and Lilium Lig in uterine displacement.
6. Indications of Merc-sol and Nitric acid in cervivitis.
7. Indications of Apis-mel and Lachesis in ovarian cysts.
8. Bryonia and Hamamellis in vicarious menstruation.
9. Indications of Pulsatilla and Nat. Mur in problems at the time of puberty.
10. Indications of Collinsnia can. and Sepia in constipation during pregnancy.
11. Indications of Medorrhinum and Belladonna in PID.
12. Indications of Carbo Veg and Aconite in aysphyxia neonatrum.
13. Indications of Caulophyllum and Cimicifuga in false labour pains.
14. Indications of Cicuta V. and Cuprum Met in eclampsia.
15. Indications of Pyrogenum and Baptisia in puerperal pyrexia.
16. Indications of Helonias and Phosphoric acid in Diabetis Mellitus during pregnancy.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION

MATERIA MEDICA

(New Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the drug picture of Thuja. 15

2. Write the drug picture of Lycopodium. 15

WRITE SHORT NOTES ON: 14x5=70

3. Skin symptoms of Croton Tig and Rhus Tox.
4. Male sexual symptoms of Selenium and Agnus castus.
5. Heart complaints of Naja T and Kalmia.
6. Compare and contrast urinary symptoms of Cantharis and Apis Mel.
7. Compare and contrast constitutions of Phosphorous and Sulphur.
8. Compare and contrast the mental symptoms of Pulsatilla and Nat. Mur.
9. Compare and contrast the rectal symptoms of Anacardium and Alumina.
10. Compare and contrast Sepia and Murex in female symptoms.
11. Compare and contrast Bryonia and Baptisia in fevers.
12. Five characteristic symptoms of Staphisagria.
13. Compare and contrast Causticum and Pulmbum Met in paralytic conditions.
14. Mouth symptoms of Borax and Sulphuric acid.
15. Respiratory symptoms of Aconite and Spongia.
16. Glandular affections of Conium M and Iodium.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
 ORGANON & PRINCIPLES OF HOMOEOPATHIC PHILOSOPHY
 PAPER – II
 (Old Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write atleast five salient features of different miasmatic states that you have studied.

15

2. What is Second Prescription? What are the types of second prescription? Explain with examples.

15

WRITE SHORT NOTES ON:

14x5=70

3. Sycotic Mind.
4. Homoeopathic Aggravation.
5. Tubercular Miasm.
6. Incurable and Difficult cases.
7. Life History and contributions of Dr. Boenninghausen.
8. Hering's Law of direction of cure.
9. Constitution.
10. Characteristics of Simple Substance.
11. Last decade of Hahnemann's Life.
12. Functions of Central Council of Homoeopathy.
13. Present trends in Homoeopathic Practice.
14. Pioneers of Homoeopathy in Independent India.
15. Metastasis as per Stuart Clouse.
16. Individualisation.

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
 OBSTETRICS & GYNAECOLOGY
 (Obstetrics and Infant care)

PAPER – I

(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Define normal labour. Write the physiology and management of 2nd and 3rd stages of labour. 15
 2. Explain the subjective and objective signs and symptoms of 2nd trimester. 15
- WRITE SHORT NOTES ON: 14x5=70
3. Ictus Neonatrum.
 4. Habitual Abortion.
 5. Hegar's sign.
 6. Pseudocycosis.
 7. Calculation of EDD.
 8. M.T.P.
 9. Indications of Caesarean section.
 10. Retained placenta.
 11. Cephalo haematoma.
 12. Oligohydramnios.
 13. Asphyxia Neonatrum.
 14. Oral Pills.
 15. Hyperemesis Gravidarum.
 16. Abnormalities of umbilical cord.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011
 THIRD B.H.M.S. EXAMINATION
 ORGANON & PRINCIPLES OF HOMOEOPATHIC PHILOSOPHY
 (NEW REGULATIONS)

Time: 3 Hours

Max. Marks: 100

Note: Answer all questions

Draw diagrams wherever necessary

1. Explain in detail about inception, evolution, features of syphilitic miasm according to Hahnemann's theory of chronic diseases. 15

2. Classify one sided diseases according to Hahnemann.
 Add a note on treatment of local diseases. 15

WRITE SHORT NOTES ON: 14x5-70

3. Pseudochronic diseases.
4. Clinical symptoms.
5. Significance of law of dissimilars.
6. Recurrent miasm.
7. 3rd and 4th observations of Dr. Kent.
8. Isopathy and Homoeopathy.
9. Vital principle.
10. Miasm of Itch.
11. Portait of disease.
12. Diet and regimen in the treatment of chronic diseases.
13. Causa occasionalis.
14. Palliation and Suppression.
15. Constitution with examples.
16. St. Antony's fire.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
ORGANON & PRINCIPLES OF HOMOEOPATHIC PHILOSOPHY
PAPER – I
(Old Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write an essay on "Mental Diseases" as per Hahnemann's Organon.
15
2. Define "One Sided Diseases". Elaborate various types of One sided Diseases as per Hahnemann's instructions. 15

WRITE SHORT NOTES ON:

14x5=70

3. Changes in 5th and 6th Edition's of Organon with reference to Homoeopathic Posology.
4. Intermittent Diseases.
5. Management with partially indicated Medicine.
6. Specific and favourite remedies.
7. Idiosyncrasy and Allergy.
8. Ideal Prover.
9. Alternating Symptoms.
10. Laws of Dissimilars.
11. Materia Peccans.
12. Genius Epidemicus.
13. Hahnemann's "Critical Review of Therapeutics".
14. Aphorism no. one (1).
15. Significance of Footnotes in Organon.
16. Nature's Therapeutic Law of Cure.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION

SURGERY

PAPER – I

(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the clinical features, clinical examination and stages of syphilis. 15

2. Describe the differential diagnosis of "Red eye" in detail. 15

WRITE SHORT NOTES ON:

14X5=70

3. Septic shock and its management.
4. Aetiology and clinical features of Tetanus.
5. Clinical features and management of thrombo angitis obliterance (Burger's disease).
6. Causes of Night blindness and its management.
7. Clinical features, types and clinical examination of cataract.
8. Clinical features and complications of deep venous thrombosis.
9. How do you identify the capillary haemorrhage? Write its Management briefly.
10. Lacerated wound and its management.
11. Traumatic gangrene.
12. Pyemia and its complications.
13. Causes of non healing wound.
14. Phacogenic (Lens-induced) glaucoma.
15. Complications of blood transfusion.
16. Cold abscess.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
SURGERY INCLUDING HOMOEOPATHIC THERAPEUTICS
PAPER – I
(OLD REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Discuss the mechanism, Patho-Anatomy, Types, Diagnosis and complications of supracandylar fracture of the Humerous. Describe treatment and indications of Calc. Phos in injuries to bones. 15

2. Write the aetiology, pathology, clinical features, investigations and complications in internal haemorrhoids. Write the indications of Nux Vomica, Muriatic acid and Sulphur in haemorrhoids. 15

WRITE SHORT NOTES ON:

3. Aetiology and clinical features of Rupture of the spleen.
4. TENNIS ELBOW and indications of Arnica and Ruta.
5. Delayed and Non-union and indications of Symphytum in the treatment of fractures.
6. Reflux oesophagitis and indications of Arsenic alb. In oesophagitis.
7. Differentiating features between indirect and direct inguinal hernia.
8. Benign Hypertrophy of Prostate and indications of Digitalis in BPH.
9. Acute gastritis and indications of Bismuth.
10. Dermoid cyst and its differential diagnosis.
11. Tension pneumothorax.
12. Hydrocele.
13. Osteosarcoma
14. Fat embolism
15. Acute Gastritis and indications of Ars. Alb.
16. Hirschsprung's disease.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011
 THIRD B.H.M.S. EXAMINATION
 SURGERY
 PAPER – II
 (NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the aetiology, pathogenesis, clinical features, investigations and management of peptic ulcer. 15

2. Define haemorrhoids. Write the types, aetiology, pathology, Clinical features, complications and management of haemorrhoids. 15

WRITE SHORT NOTES ON:

14x5=70

3. Depressed fractures of skull – Types and complications.
4. Fractures of neck of femur – classification, signs and symptoms and possible complications.
5. Causes and investigations of oesophageal perforation.
6. Causes of secondary hydronephrosis and special investigations in hydronephrosis.
7. Osteoarthritis – Aetiology and clinical features.
8. Tennis elbow and Mallet finger.
9. Foreign bodies of the ear and their removal.
10. Serous Otitis Media (Glue Ear).
11. Aetiology and clinical features of Atrophic Rhinitis (ozaena).
12. Aetiology and clinical features of Acute Maxillary Sinusitis.
13. Adenoids – Aetiology, clinical features and diagnosis.
14. Aetiology and signs and symptoms of chronic pharyngitis.
15. Dental cyst (periodontal cyst).
16. Alveolar abscess.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
OBSTETRICS & GYNAECOLOGY

PAPER – II

(Old Regulations)

Time: 3 Hours

Max. Marks: 100

Note: Answer all questions

Draw diagrams wherever necessary

-
1. Define amenorrhoea. Write a note on aetiology, investigations, management of primary amenorrhoea with 4 remedies. 15
 2. What are pelvic inflammatory diseases? Enlist causes, types, signs and symptoms, complications of acute salpingitis and indications of Alumina, Borax, Sepia & Medorrhinum. 15

WRITE SHORT NOTES ON:

14x5=70

3. Menorrhagia and indications of Phos and Hammamelis.
4. Hodge pessary – indications / contraindications.
5. Spasmodic dysmenorrhoea – clinical features and management.
6. Retroverted uterus – causes, clinical features and indications of Lilium Tig.
7. Cervical cysts.
8. Aetiology Vulve Pruritus with 2 remedies.
9. Side effects and complications of IUCD.
10. Clinical features, diagnosis, complications of endometriosis.
11. Ultrasonography – Gynaecological indications.
12. Secondary changes in fibroid.
13. Oligospermia – Indications of Spongia tosta and Lycopodium.
14. Premenstrual Syndrome.
15. Acute gonorrhoea – Clinical features and diagnosis and indications of cannabis sativa.
16. Uterine anomalies.

- - -

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

.....

THIRD B.H.M.S. EXAMINATION
 SURGERY INCLUDING HOMOEOPATHIC THERAPEUTICS
 PAPER – II
 (Old Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

-
1. Write the causes, clinical features, complications and management of C.S.O.M. Write the indications of Pulsatilla, Silicea and Aurum Met. For CSOM. 15

 2. Define shock. Write the pathophysiology, clinical features and management of hypovolemic shock. Write the indications of Strontium carb, Carbo veg and Camphor in shock conditions. 15

WRITE SHORT NOTES ON:

3. Spring catarrh (Vernal Keratoconjunctivitis) and indications of Euphrasia in conjunctivitis.
4. Laryngeal stridor.
5. Ptosis and indications of Sepia.
6. Adenoids and indications of Calc. Carb.
7. Dentigerous cyst.
8. Adamantinoma and indications of Hecla lava in jaw affections.
9. Aetiology and Pathogenesis of Primary open angle glaucoma and indications of Phosphorous in glaucoma.
10. Local changes in burns and indications of Cantharis in burns.
11. Atrophic rhinitis and indications of Kali Bich.
12. Clinical features and complications of Acute Tonsillitis and indications of baryter carb. in tonsillar affections.
13. Gum abscess and indications of Merc'sol and Hepar sulph.
14. Disorders of eruption of teeth.
15. Chronic pharyngitis and indications of Lycopodium.
16. Blepharitis and indications of Graphites.

B.H.M.S. DEGREE EXAMINATION – MARCH/APRIL, 2011

THIRD B.H.M.S. EXAMINATION

SURGERY

PAPER – III

(NEW REGULATIONS)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the indications of Nitric acid, Muriatic acid, Phytolacca and Carcinocin in treating cancer of Tongue. 15

2. Write the indications of Cal.Carb, Phosphorus, Sanguinaria, Teucrium M.V. and Thuja in nasal polyps. 15

WRITE SHORT NOTES ON:

14x5=70

3. Indications of Baryta carb and Conium in BPH.
4. Indications of Hepar Sulph and Calc. Sulph in abscess.
5. Indications of Iodium and Spongia in Goitre.
6. Indications of Opium and Phosphorus in treating intra cranial haematoma.
7. Indications of Pariera Brava and Lycopodium in renal stones.
8. Indications of Chamomilla and Mag. Phos in toothache.
9. Indications of Belladonna and Silicea in Alveolar abscess.
10. Indications of Flouric acid and Petroleum in eye affections.
11. Indications of Plumbum met and Opium in Intestinal obstruction.
12. Indications of Aesculus H and Ignatia in haemorrhoids.
13. Indications of Caulophyllum and Actea spicata in Rheumatoid arthritis.
14. Indications of Apis M and Pulsatilla in conjunctivitis.
15. Indications of Arg Nit and Causticum in laryngeal affections.
16. Indications of Ledum Pal and Arnica in injures to the eyes.

.....

THIRD B.H.M.S. EXAMINATION
OBSTETRICS & GYNAECOLOGY

PAPER – I

(Old Regulations)

Time : 3 Hours

Max. Marks : 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Define Hyperemesis Gravidarum. Write a note on aetiology, clinical features, management of mild and severe cases with indications of Puls, Kali carb and Ipecac. 15
2. What is placenta praevia? Give its aetiology, varieties, clinical features, diagnosis and complications. 15

WRITE SHORT NOTES ON:

14x5=70

3. Eclampsia – Aetiology and clinical features.
4. False labor pain and indications of Caulophyllum in pains.
5. Jaundice in new born and indications of China.
6. Role of cantharis and causticum in retention of urine after labor.
7. PPH – define, aetiology and indications of Trillium and Thlapsi bursa.
8. Assessment of CPD (cephalo – plevic disproportion).
9. Hydramnia – Definition, symptoms and diagnosis.
10. Induction of labour.
11. Post – maturity.
12. Indications of Caeserean section.
13. Indications of Apis and Sabina in abortion.
14. Agalactcia and indications, Puls and Asafoetida.
15. Ophthalmia neonatorum and indications of Arg.Nit.
16. Causation of 1st stage labor.

MATERIA MEDICA

(Old Regulations)

Time : 3 Hours

Max. Marks: 100

Note : Answer all questions

Draw diagrams wherever necessary

1. Write the drug picture of Sulphur. 15
2. Write the drug picture of Medorrhinum. 15
- WRITE SHORT NOTES ON: 14x5=70
3. Skin symptoms of Dulcamera and Thuja.
4. Characteristic symptoms of Plumb. Met.
5. Sanicula in children complaints.
6. Compare and contrast Aconite, Ars alb and Rhuxtox in restlessness.
7. Hysterical symptoms of Moschus and Ignatia.
8. Compare and contrast Glonoire and Nat. Mur in headaches.
9. Compare and contrast Lycopodium and Silicea in mental symptoms.
10. Compare and contrast gastric complaints of Bismuth and Kreosote.
11. Millifolium and Trillium pendulum in haemorrhages.
12. Respiratory symptoms of Ant.tart and Spongia.
13. Colic and Neuralgic symptoms of Mag phos.
14. Fer. Met and Ledum pal in rheumatic complaints.
15. Glandular affections of Iodum.
16. Fever symptoms of Gelsemium and Baptisia.

REPERTORY

(Old Regulations)

Time: 3 Hours

Max. Marks: 100

Note: Answer all questions

Draw diagrams wherever necessary

1. Explain philosophic background, plan and construction and adaptability of Boger Boenninghausen's Repertory and compare with Kent's Repertory in General. 15
2. Define Homoeopathic Repertory. Describe the historical development of Repertories from Hahnemann time till to date. 15

WRITE SHORT NOTES ON:

14x5=70

3. Objectives of case-taking.
4. Uses of Repertory.
5. Pathological generals with examples.
6. Eliminating method of repertorisation.
7. Salient features on art of case-taking.
8. Totality of symptoms.
9. Define cross reference. Write four cross references in Extremities chapter of Kent's Repertory.
10. Record keeping and its uses.
11. HOMPATH (Computer Repertory).
12. What is the third chapter of Boenninghausen's therapeutic pocket book and describe it briefly.
13. Kent's evaluation of symptoms.
14. How the subject of Repertory helps in the study of Materia Medica?
15. Describe the fever chapter of Boenninghausen's therapeutic pocket book.
16. Where do you find following rubrics in Kent's Repertory?
 - a) Flabby tongue
 - b) Every thing looks golden
 - c) Lice
 - d) Cracked lips
 - e) Voice
